

Tiger Newspaper Sexual Assault Survey

Results are based on the responses of 91 people who took a Google Form opened on Tuesday, November 24. The survey received its last submission on Friday, December 4.

The survey was distributed via a Google Form that was advertised on the *Tiger Newspaper* Instagram, as well as staff members' and SPHS students' personal accounts

The survey was open to anyone, but it was directed at the current SPHS student body. Those who took the survey did so on their own accord.

91 people out of 1459 students at SPHS filled out the survey, leaving a margin of error of +/- 10 percent. In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

Percentages were taken straight from the 91 individuals who took the survey.
